Kwalitatieve huisvestingen voor arbeidsmigranten is een van de speerpunten van VillaChalets en daarvoor hebben we een breed scala aan zogenaamde modulaire Blok Woningen.

Met deze modulaire woningen kunnen we snel en flexibel woningen voor arbeidsmigranten leveren of complete groepsverblijf locaties samenstellen.

VillaChalets maakt met de modulaire blok woningen het voor bedrijven of gemeentes mogelijk om in korte tijd over een stevige en duurzame arbeidsmigrantenhuisvesting te beschikken. Op deze manier kan de huisvesting van arbeidsmigranten legaal gebeuren, zonder problemen bij de installatie van de Blok Woningen of wanneer men de locatie huurt.

De voordelen van de Blok Woningen voor de huisvesting van arbeidsmigranten is de stevige structuur en tegelijkertijd de veelzijdige mogelijkheden. De modulaire units kunnen worden afgestemd op uw behoeften. Zo kunnen de modules voor arbeidsmigrantenhuisvesting volledig worden uitgevoerd als een huis, met een slaapkamer, een badkamer, een eetkamer en een keuken.

Ook is het mogelijk om de wooneenheden naast of boven met elkaar te koppelen tot eenheden van twee verdiepingen. Zo kunnen de modulaire units verschillende afmetingen hebben en de indeling krijgen die u wenst.

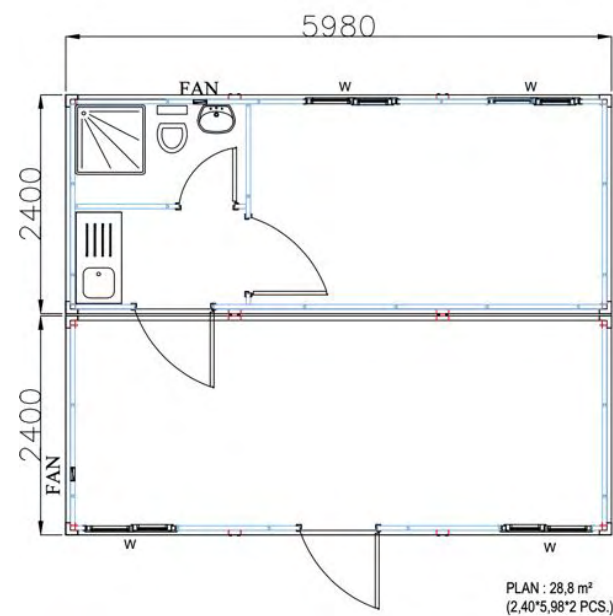

Tijdelijke huisvesting, of ook wel korte termijn huisvesting of flexwonen genoemd, is bedoeld voor mensen die voor korte tijd een woning nodig hebben. Tijdelijke huisvesting wordt ook gebruikt voor noodsituaties.

Onze modulaire containerwoningen voor arbeidsmigranten voldoet aan alle wettelijke vereisten voor veiligheidsgebruik en voor alle elektrische, water- en gebouwinstallaties.
